

Justine Taglucop

Software Developer

09619338922 • justinetaglucoop@gmail.com • [Github](#) • [Portfolio](#) • Cebu City, Philippines

Summary

Front-end Software Developer with experience building responsive and maintainable applications using Angular, TypeScript, NgRx, RxJS, Storybook, and automated testing frameworks. Strong background in micro frontends, clean architecture, and CI/CD-driven environments.

Education

AMA Computer Learning Centre

Bachelor of Science in Information Technology

Mandaue City, Cebu, Philippines

08/2019 - 06/2023

- Best in Web Development
- Web Development, Database Management, Software Engineering, Programming Languages (JavaScript, Python, PHP, TypeScript)

Experience

Freelance Frontend Developer

Software Developer

Remote

09/2025 - Present

- Built and deployed an e-commerce website with product catalogs, shopping cart functionality, and payment integration.
- Developed a capstone project web application using Angular and modular architectures.
- Created responsive landing pages optimized for performance and conversions.
- Integrated REST APIs, implemented reactive forms, and built reusable UI components.
- Deployed production-ready applications through Vercel with automated build pipelines.

ActiveLAMP

Software Developer

California, United States

06/2023 - 02/2025

- Built Angular applications with reusable components and scalable architecture.
- Implemented NgRx and Component Store for predictable state management.
- Developed business logic using TypeScript and RxJS.
- Maintained enterprise CRM with micro frontends.
- Wrote automated tests with Jasmine, Karma, Cypress, and Cucumber.
- Improved performance, debugging, and code quality.

Rygel Technology Solutions

Web Developer Intern

Gov. M. Cuenco Ave, Nasipit Cebu City, Cebu

09/2022 - 02/2023

- Built features and resolved bugs using CodeIgniter and PHP.
- Optimized database queries and assisted in schema design.
- Participated in code reviews and team development processes.
